GitHub: github.com/AKASH-22203 | Portfolio: akash-22203.github.io/profile/

Recent **Computer Science graduate** with expertise in **web design**, and **DevOps**. Skilled in **SQL, Java, HTML, CSS, JavaScript, Python, Docker, Terraform, Maven, Jenkins, AWS**, and **Git/GitHub**, with experience building **intuitive web interfaces, automation pipelines**, and **cloud-native solutions**. Passionate about **problem-solving** and **collaboration**, aiming to grow as a versatile **Software Engineer/DevOps professional** contributing to **impactful projects** and driving **efficiency**.

Experience:

Intern – Web Developer | DevMinds

Oct 2023 – Nov 2023

- Contributed to a **development project**, focusing on **UI/UX design** and **website aesthetics** to enhance **user experience**.
- Applied and refreshed **HTML & CSS skills** to build **responsive, well-structured components**.
- Gained practical exposure to **web systems** and **development workflows**, strengthening understanding of **real-world project execution**.

Intern – QA Common Dev | Altair India

Jan 2025 – Jul 2025

- Performed **manual testing, bug tracking, and test management** using **Jira** and **Xray**, gaining hands-on exposure to the full **QA lifecycle**.
- Identified **60+ bugs**, including **2 blockers, 8 critical, and 36 high-priority issues**, directly contributing to improved **product stability**.
- Strengthened skills in **automation engineering** and **SQL validation**, enhancing efficiency in **test execution** and **data verification**.
- Successfully supported a **major deployment**, ensuring **high-quality delivery** and reinforcing **best practices** in **software assurance**.

Associate – Data Operations | Consilio India

Jul 2025 – Nov 2025

- Optimized **data flow processes** and ensured **accuracy** across **business operations**, improving **efficiency** and **reliability**.
- Gained hands-on experience with **eDiscovery workflows** and the **Relativity platform**, supporting **legal** and **compliance requirements**.
- Maintained **operational reliability** and **data integrity**, contributing to consistent **team performance** and **project success**.
- Collaborated with **cross-functional teams** to streamline processes and support **business continuity** in **critical operations**.

Projects:

Music Player

- Developed a **basic music player website** with essential functionalities.
- Implemented features such as **play, pause, stop, and navigation**.
- Technologies: HTML | CSS | JavaScript**

QR Generator

- Built a **Python project** that generates **QR codes** for websites, enhancing usability with **quick and reliable code generation**.
- Technologies: Python**

Quiz Application (Java)

- Designed and implemented a **feature-rich desktop quiz application** with **real-time scoring**.
- Demonstrated proficiency in **Java GUI** to deliver an **engaging user experience**.
- Technologies: Java**

Sign Language Detection (Python)

- Live Sign Language Detection:** Activates the user's **camera** to capture **live video feed** and detect signs in **real-time**, providing immediate **feedback** and **translation**.
- Image Upload Detection:** Users can upload an **image** containing a **hand sign**, and the system will analyze and **identify** the sign depicted.
- Video Upload Detection:** Allows users to upload a **video file**, which the system processes to **detect** and **translate** signs present in the **video frames**.
- Technologies: HTML | CSS | JavaScript | Keras model | API Endpoints | Flask**

Skills:

- **Languages: C | JAVA | Python | Groovy**
- **Frontend Development: HTML | CSS | JavaScript | React.js**
- **Backend Development: Django | SQL**
- **Testing & QA: Manual Testing | Automation Testing | Bug Tracking (Jira, Xray) | Katalon**
- **Tools, Models & Platforms: Git/GitHub | VS Code | Docker | Terraform | Maven | Jenkins | AWS | Relativity (Data Operations) | API Development | Keras (basic model integration)**

Education

Dayananda Sagar Academy Of Technology and Management
B.E – Computer Science and Engineering

2021- 2025 (present)
CGPA :9.15

SARVAJNA PU COLLEGE
PUC – Science

2019-2021
Percentage : 91.16%

ADARSHA VIDYALAYA
Class X

2018 -2019
Percentage: 91.68%

Achievements

- ✓ Coordinator of CodeArena (Hackathon) event held at college.
- ✓ Active participant in Algosphere events, including Tic-Tac-Toe and Capture the Flag competitions.
- ✓ Participated in CyberQuest (AIML Department Hackathon), gaining exposure to collaborative problem-solving and innovation.

Certifications

- ✓ Java for beginners-Infosys Springboard
- ✓ Python certification IBM.
- ✓ Programming using C - Infosys Springboard
- ✓ DBMS Course-Master the Fundamentals and Advanced Concepts-Scaler
- ✓ Computer Networking-Cisco

Soft Skills : *Communication | Decision Making | Time Management*
